

EMERGENCY MEDICAL TECHNICIAN-INTERMEDIATE

General Statement of Duties

Performs intermediate level life support, stabilization procedures, and emergency medical care in the Emergency Medical Services unit of the County.

Distinguishing Features of the Class

An employee in this class is responsible for providing intermediate level of life support and medical emergency treatments to patients at the accident or illness scenes and during transport to medical facilities. May operate the convalescent unit transporting patients to a variety of locations or may serve as a crewmember on an advanced life support unit under the direction of an EMT- Paramedic. Work includes assuring that quality emergency patient care standards are in place, proper equipment and treatment are available, and sound judgment and treatment decisions are made. Work is subject to both inside and outside environmental conditions, extremes in temperatures, noise, vibrations, hazards associated with emergency medical work including exposures to fumes, odors, dusts mists, gases, poor ventilation, and oils. Because of the nature of the work, the employee is exposed to human blood and is subject to the OSHA requirements on blood borne pathogens. Work is supervised on site by an EMS Supervisor or EMT-Paramedic and is evaluated through conferences, observation, discussion of procedures at emergency scenes, and public feedback.

Duties and Responsibilities

Essential Duties and Tasks

May perform any act consistent with the EMT-I level upon direction of the EMT-Paramedic as defined by patient care protocols of the ALS program.

Serves as operator of emergency medical unit responding to calls for assistance.

Administers intermediate level of life support techniques and procedures based on patient assessment, including all skills at the EMT level as well as drawing blood, administering approved medications, initiating intravenous fluids, and performing pulmonary ventilation.

Special Note: This generic class description gives an overview of the job class, its essential job functions, and recommended job requirements. However, for each individual position assigned to this class, there is available a complete job questionnaire with a physical abilities checklist, which can give further details about that one specific position. Those documents should be reviewed before initiating a selection process. They can provide additional detailed information on which to base various personnel actions and can assist management in making legal and defensible personnel decisions.
