

Here is the list of capnography websites for the intranet:

<http://www.capnography.com/>

<http://www.capnography.net/>

<http://www.novamatrix.com/>--> click on capnography; then reference library; then the capnography concepts link to view the presentation.

<http://www.nyern.com/>--> once you enter the site click on nursing critical care on the left side under the nursing heading; then click on the CO2 monitoring interactive link to view the presentation or click on the CO2 monitoring pocket reference link to view the reference sheet

Thanks,

Darin
